

Culminating Assignment: MEd in Instructional Leadership
Specialization in Higher Education/Student Affairs

The culminating assignment is designed to provide the opportunity for reflection on the program as a whole, and to demonstrate your understanding of the standards that guide practice in the field.

Here is a link to the standards: <http://standards.cas.edu/getpdf.cfm?PDF=E868395C-F784-2293-129ED7842334B22A>

The Portfolio should include the following sections

1. A personal documentation section including, a resume or vitae, and a summary of your internship experience
2. One section for each of the 12 CAS Standards;
 - a. A brief 2-3 page paper telling me what you know and believe about the standard, and how you came to know it. It should also include;
 - A reference to assignments from your coursework that contribute to your understanding of the standard (You should have at least one assignment for each standard/more than one is fine).
 - A copy of each of the assignments referenced.
3. A table with the standards across the top and a list of completed assignments down the left side. Cells showing the intersection between the standard and the assignment should be highlighted.

Remember that the purpose is to show that you have reflected on each of the standards, and are able to articulate an understanding of their meaning to you as a professional.
