The Star Wars Competition will be held at 1:00 pm in the Sunburst International Lounge located in the Taggart Student Center. The following rules and procedures will govern this competition.

1. Competition for individual team members will consist of nine rounds.
2. Team members will be called forward one at a time and asked five questions.
3. A maximum of 10 seconds will be allowed for answering each question.
4. Questions will cover general knowledge in a variety of subject areas.
5. A different set of five questions will be used for each round (total of 45 questions). All contestants in a given round will be asked the same questions.
6. One point will be scored for each question answered correctly.
7. Contestants may **NOT** receive any assistance from any other individual, and may **NOT** use calculators, cell phones, Palm Pilots, (or other PDA’s) or any other resource.
8. A cumulative team score will be kept and posted at the conclusion of each question.
9. At various points of the nine round individual questions, there will be questions asked of all of the teams where a team answer is required. Teams will confer and respond with a single team answer within the time specified by the person asking the questions. A team member designated in advance by the coach will give the team’s answer. Each correct answer will be awarded three points.
10. At the end of the individual and team competition, team scores will be verified. The team with the highest total score will be the winner.
11. In case of a tie, each of the teams involved will be asked on question. Team members may confer for a maximum of 30 seconds. One team member, designated in advance by the coach, will respond with the team’s answer. Correct answers will be awarded one point. A team answering the question incorrectly will be eliminated. If no team answers the question correctly, another question will be asked. This procedure will continue until a winner is determined.
12. Only team members can challenge a question that has been asked. If a question is challenged, the subject matter judges will make a decision and all decisions will be final. An unsuccessful challenge will result in the loss of one point by the team submitting the challenge. The challenge cannot come from a coach. A question cannot be challenged after the next question has been asked.
